

PYXIS PARTNERS  
PATHWAYS TO PROGRESS

## Olivia Reed - Intern

Olivia is pursuing a bachelor's degree in communication with a concentration in public relations and a minor in health communication at George Mason University. Simultaneously, she is also a part of an accelerated master's program where I am studying communication with a specialization in health communication. She was drawn to Pyxis because of their values and how the work aligns with her own research. Olivia shares Pyxis' commitment to engaging underrepresented communities and encouraging more participants in biomedical research. In her free time, she loves spending time outdoors walking, hiking, rock climbing, kayaking, or camping; as long as she's outside she's happy!
