

PYXIS PARTNERS
PATHWAYS TO PROGRESS

Yekaterina Simanovskaya – Associate

As an Engagement Associate, Yekaterina supports the firm's work on the National Institutes of Health's (NIH) All of Us Research Program. Prior to joining the Pyxis team, Yekaterina worked as a Health IT and Quality Intern for SEA Healthcare in eCQM development and related projects.

She has additional direct patient care experience as a Rehabilitation Technician at Mercy Medical Center. Yekaterina graduated with her BS in Health Education and Promotion in December 2020 from Towson University later receiving her Certified Health Education Specialist Certification (CHES®).

She will be finishing her Master's in Health Science from Towson University in December 2022, with a concentration in Community and Administration health. Yekaterina resides in the Baltimore area with her family. In her free time, she enjoys exploring local thrifting and food spots with her friends.
